Welcome to ESN Wiki - ESN Knowledge and Information Platform!

What is ESN Wiki?

ESN Wiki is ESN's main knowledge and information platform. It is organised in Spaces and their Pages. The list of all Spaces can be found in the Space Directory. **The main spaces can be found below - just click on the pictures to learn more!** On the Space Directory, you can also find the spaces of all the ESN Countries, where you can discover best practices from around the network.

By clicking on the star next to each Space, **you can bookmark your favourite Spaces** that you want to access easily.
To stay up to date with new additions to spaces, **you can follow the Spaces and set notifications** to be informed via email whenever there is a change.
This can be particularly useful if you are interested to **follow voting results, be informed of new opportunities in ESN or receive event reports once they are published.**

To learn more about the platform and how to edit a page visit the *Help Centre.*
